Alex Rickard
Full Stack Developer

Kansas City, Missouri

(316)-706-7384

lxrickard@gmail.com

Summary

Motivated and solution-focused. I work tirelessly to ensure that clients not only have their needs met but their expectations exceeded. I am experienced in developing responsive web applications, React web applications, and currently learning the backend of software development.

Projects

Trinity Heights Respite Care • 2022-23 | WordPress, PHP
Communicated technical issues to non-technical clients. Developed and maintained web applications using JavaScript, HTML, and CSS. Ran meetings to determine project goals and timeline. Implemented Stripe Integration to handle electronic transactions and donations for clients.

Guess That Pokemon (React) • 2023 | HTML, CSS, JS, React, APIs
• Created a CI/CD pipeline that integrates changes in the app almost instantaneously. Utilized AJAX to consume Pokemon API data. Collaborated with Designer to generate user flow and sign-in.

The Burger web page • 2022-23 | HTML, CSS, JS • User-friendly web application which showcases my ability to effectively use flexbox display properties to created a sophisticated modern user interface.

Education

Emporia State University
- Graduated Magna Cum Laude with a Bachelor's of Science in Biochemistry
- Awarded a Small Business Entrepreneurship Grant for a business I cofounded
